How End-to-End Planning in PANDORA Has Enabled Significant Improvement in Product Availability

PANDORA is on an ambitious transformation journey to become a truly global, large-scale, branded retailer with own manufacturing and control of the full value chain. To fuel and support this journey, a transparent, data-driven, fast and agile product availability planning across the full vertically integrated value chain is the absolute core.

ANDERS FRANSEN

Director – Global Supply Chain, PANDORA A/S

Anders Frandsen graduated from Aalborg University with a master's degree in Management Engineering – with focus on industrial management, economics, programming and organizational behavior.

He has over 15 years of experience, and has since 2016 worked at Pandora, currently as Director Global Supply Chain, where he, together with his team, has the global responsibility for supply planning of both Jewelry and Point-of-Sale Materials, owning the S&OP process across Pandora and drives planning excellence development of integrated planning across the value chain.

Anders is a passionate and dedicated leader with great experience and interest within supply chain management.

Where do I find inspiration for my career?

I find inspiration through surrounding myself with inspiring and great colleagues at Pandora and through a great professional network outside Pandora. I often take the time to reflect on my own career and journey, my team and people, as well as for the company overall.
